Faculty Opening in Analytical Chemistry

The Department of Chemistry invites applications for an open level faculty position in the broad area of Analytical Chemistry, to start on July 1, 2016. The candidate is expected to develop an internationally recognized and externally funded research program, and to be strongly committed to both undergraduate and graduate teaching. Applicants must have a doctoral degree in chemistry or a related field. Successful applicants will show evidence of original research accomplishments and the potential to develop a successful independent research program. Preference will be given to applicants whose research interests complement those of existing faculty and strengthen campus strategic initiatives.

Applications should include a full curriculum vitae, a description of proposed research, teaching philosophy and letters from three professional references. A statement addressing potential contribution to academic diversity may be included. Application materials for the Assistant Professor position should be submitted through http://aprecruit.ucr.edu/apply/JPF00375. Senior applicants should apply through http://aprecruit.ucr.edu/apply/JPF00382. For full consideration applications should be received by October 23, 2015. Applications will be accepted until the position is filled. Salary is commensurate with education and experience. Advancement through the faculty ranks at the University of California is through a series of structured, merit-based evaluations, occurring every 2-3 years, each of which includes substantial peer input.

UCR is a world-class research university with an exceptionally diverse undergraduate student body. Its mission is explicitly linked to providing routes to educational success for underrepresented and first-generation college students. A commitment to this mission is a preferred qualification. The University of California is an Equal Opportunity / Affirmative Action Employer with a strong institutional commitment to the achievement of excellence and diversity among its faculty and staff. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, age, disability, protected veteran status, or any other characteristic protected by law. Information about the Department is available at http://www.chem.ucr.edu.
