Level 1 Training
Phase 3: CSS and Image Selection

**Time:** 60 – 90 minutes
**Format:** Instructor-led

**Description:** To provide useful information on how to use Cascading Style Sheets (CSS) and use the appropriate images on a university website. In this workshop you will learn how to use CSS and learn which images and best formatting for those images.

**Objectives:**
- To apply CSS classes and simple Bootstrap code
  - Buttons
  - Tables
  - Call-out boxes (wells)
  - Glyphicons
- To add or change images in the body of a web page or banner
  - Image types
  - How to properly resize an image
  - Choosing images strategically
  - Creating a record of where images are used
