## Recommended Timeline for Event Promotion

Please allow enough time for design and approval processes. Ideally, you should develop a timeline that starts at least six weeks before the date of your event.

Six weeks out

Request design services for things like posters, fliers and digital signage graphics through NIU Creative Services. Add your event to the NIU Calendar and your department's website.

Five weeks out

Submit design and promotional materials to the NIU Clearinghouse for review, and submit posters and table tents to Student Involvement and Leadership Development for electronic stamp approval. If you use NIU Creative Services for design services, they will facilitate both the Clearinghouse Review and the stamp approval processes for you.

Four weeks out

Distribute your posters, fliers, table tents, postcards and any other materials you have produced. Start promoting your event through your department's social media accounts. If you don't have any departmental social accounts, do not create new ones. Submit a request to have the event publicized through NIU's main social accounts by emailing [socialmedia@niu.edu](mailto:socialmedia@niu.edu).

Three weeks out

Review your event listing on the NIU Calendar to make sure it is accurate.

Week of the event

Chalk campus sidewalks with the event name, day, time and location.
