Your Help Is Needed!

3rd Year DPT Students:

- Would you like to see Unrestricted Direct Access for physical therapists in all States?
- Do you want the privilege of true autonomous practice?
- If so, we are conducting a study that may interest you.

The purpose of our study is to examine the clinical decision-making ability of 3rd year Doctor of Physical Therapy (DPT) students, and your responses could help to support our push for unrestricted direct access and autonomous practice. Data is being collected now via an online survey and here is the link:

https://niu.az1.qualtrics.com/SE/?SID=SV_bl9TFwLoROrf0xv. Please take 30 minutes to help us gain this valuable information! Your time and cooperation are greatly appreciated, thank you.
