School of Music
MUSC 699/797 Information Form
Must be Completed Prior to Registration

(Circle ONE)
MUSC 699A, Recital
MUSC 699D, Final Project
MUSC 699B, Thesis
MUSC 797, Performer's Certificate Research and Performance
MUSC 699C, Composition

Name ___________________________________   Student ID Number ___________________________

A graduate student in a Master of Music area of study who has formally begun the thesis or its equivalent must register in MUSC 699 in each subsequent term, including summers, until the work is approved by the Graduate School. MUSC 797 does not require continuous enrollment. Registration in 699/797 may be in absentia.

All work done under 699/797 must be in consultation with a project director, who, along with a majority of the student’s committee, must sign a Graduate School approval form when the work has been satisfactorily completed.

PERMISSION The entire committee must sign before submitting this form and enrolling in MUSC 699 or MUSC 797. MUSC 699B students must also abide by Graduate School graduation deadlines:

Research Involving Human Subjects
Faculty who conduct research involving human subjects, or who supervise graduate students who do such research, must insure that procedures set by the University Institutional Review Board are strictly followed. Any research projects involving the use of human subjects, regardless of source of funding, must have IRB review and approval before data collection can begin. “Human subjects research” means any systematic investigation in which data are collected via intervention or interaction with any living individual or by collection of identifiable private information that is designed to develop or contribute to generalized knowledge. In addition to physical procedures and interactions, this includes research involving questionnaires, surveys, and interviews. Retroactive IRB approval of a project after data have been collected is not possible under the federal regulations, and conducting human subjects research without prospective IRB review and approval puts NIU in danger of federal sanctions and could jeopardize faculty and student (including thesis/dissertation) research progress. The University’s Office of Research Compliance (Adams Hall room B-4) has forms and helpful information posted on its web site (www.grad.niu.edu/orc).
