IV. PRESIDENT’S ANNOUNCEMENTS

L. Freeman presented the following announcements indicating that questions and/or comments would be entertained at the end:

- Chief Financial Officer
  Introduced and welcomed NIU Chief Financial Officer, Sarah McGill.
• **State legislative update**

The spring legislative session is underway and will likely focus on the state budget, an area of great concern for NIU and other public universities. Uncertainty remains about whether a budget appropriation will be forthcoming, however, several General Assembly members have been encouraging in sharing their belief that a budget will pass.

The IBHE has been advocating publically on behalf of higher education in an effort to restore confidence in Illinois colleges and universities and stem student outmigration. There is agreement on a request for a $100 million increase in MAP funding; however, there has been disagreement between the IBHE and the Illinois public university presidents and chancellors regarding the IBHE’s budget recommendations. In terms of the operating budget, the IBHE is requesting a 1.9 percent over FY18 ($24.1 million over current funding for a total of $1.1 billion for public universities) and the presidents/chancellors are asking for a return to FY15 funding levels ($1.2 billion, which is a difference of $100 million).

*Letter* to IBHE Executive Director, Al Bowman from Illinois university presidents, was read to the body. For context, $5.5 billion in backlogged maintenance currently exists.

NIU will participate in appropriations hearings in front of the Senate and House Higher Education Committees, currently being scheduled to begin in March. In addition, like the other public four-year institutions, NIU will present before a 12-person bicameral, bipartisan higher education working group (of which Rep. Pritchard is a member) on February 8. NIU has been asked to present data on recruitment, retention and graduate rates, and for the presenters to be the administrators with responsibility for those areas rather than the president.

• **Open Meetings Act update**

Following up on a report made at the December 6, 2017 University Council meeting that University Council and its standing committees will move to Open Meetings Act compliance, employees have been designated to complete OMA training annually. University Council staff are developing easy-to-use guidance for UC standing committee chairs. OMA elements that standing committees are expected to observe during the spring 2018 semester are: 48-hour advance posting of meeting agendas, provision of an opportunity for public comment, and prohibition on the majority of a quorum discussion council or committee business outside of a public meeting. University Council is working toward full compliance for Fall 2018.

• **Maxient System**

Some NIU students have expressed concern that NIU is monitoring their social media accounts via a watchlist. This is not the case. This meeting is an opportunity to provide clarity regarding the university’s use of Maxient software and its proactive response mechanism that the vendor has, unfortunately, termed, “watchlist.” K. Wesener Michael was asked to provide background and factual account of this situation.

Feedback and dialogue that can lead to improved policies and practices to enhance
student well-being and academic success was encouraged.

In response to a request, the “Report an Incident” link is being provided in these minutes.

- **Michigan State University**
  In the wake of what has emerged from Michigan State University, L. Freeman reiterated NIU’s expectations that “if you see something, hear something or have reason to be concerned, say something. And we will pursue with appropriate measures. This is each of our responsibility to each other.”

- **Upcoming Campus Experience Survey**
  An email urging participation will be distributed soon.
