Limited Retention Requirements
All business majors must complete FINA 320, MGMT 335, MKTG 310 and OMIS 338 by the end of the first year in which they enroll in 300- or 400-level business courses. Prerequisites for these four courses are: a grade of C or better in each of the 100- and 200-level Foundations of Business course in the Business Core; having a 2.50 or better cumulative GPA; and having completed at least 45 semester credit hours. To continue as a business major, students must earn a C or better in FINA 320, MGMT 335, MKTG 310 and OMIS 338. Additional retention requirements for each major can be found under Department Requirements.

Business Core (46-50)
The business core must be completed by all students majoring in business.

100- and 200-Level Foundations of Business Courses (29-32)
ACCY 206 - Introductory Financial Accounting (3)

300- and 400-Level Business Core Courses (18)
FINA 320 - Principles of Finance (3)
MGMT 335 - Managing Individuals, Teams, and Organizations (3)
MGMT 468 - Strategic Management (3)
MGMT \textit{310} - Principles of Marketing (3)
OMIS 338 - Principles of Operations Management (3)
OMIS 351 - Information Systems in Organizations (3)
     OR ACCY 310\textsuperscript{2} - Accounting Information Systems (3)

Minor in Business Administration (36-41)

↓

Three of the following (9)
FINA 320 - Principles of Finance (3)
MGMT 333 - Principles of Management (3)
MKTG 310 - Principles of Marketing (3)
OMIS 338 - Principles of Operations Management (3)

Transfer Credit in the College of Business
Students who plan to transfer to NIU and major in an area of business should have taken as many of the business core Foundations of Business courses as possible.

Other catalog change 2017-18 Undergraduate Catalog

(The following paragraph with the course listings appears in the online undergraduate catalog. It is a shared set of college requirements and is in the college section of the catalog and appears prior to each department’s major requirements section.)

Business Core (46-50) Limited Retention Requirements
The College of Business is competitive based on a student’s overall GPA and performance in selected tool courses. All business majors must complete FINA 320, MGMT 335, MKTG 310, OMIS 338 and, by the end of the first year in which they enroll in 300- or 400-level business courses. Prerequisites for these four courses are: a grade of C or better in each of the 100- and 200-level Foundations of Business courses in the Business Core; having a 2.50 or better cumulative GPA; and having completed at least 45 semester credit hours. To continue as a business major, students must earn a C or better in FINA 320, MGMT 335, MKTG 310, OMIS 338, and OMIS 351.

Additional retention requirements for each major can be found under Department Requirements.

The business core Foundations of Business and Business Core courses must be completed by all students majoring in business.

100- and 200-Level Foundations of Business Courses (29-32)
ACCY 206 - Introductory Financial Accounting (3)

300- and 400-Level Business Core Courses (18)
FINA 320 - Principles of Finance (3)
MGMT 335 - Managing Individuals, Teams, and Organizations (3)
MGMT 468 - Strategic Management (3)
MKTG 340 - Principles of Marketing (3)
OMIS 338 - Principles of Operations Management (3)
OMIS 351 - Information Systems in Organizations (3)

OR ACCY 310 - Accounting Information Systems (3)
Accountancy students are required to take ACCY 310.

Business Analytics Enterprise Management Using SAP Software (12)
Coordinator: Steven Kispert Academic Advisor, Department of Operations Management and Information Systems

This certificate is designed for all majors. Business Analytics Enterprise Management Using SAP Software is a broad category of technologies, applications, and practices for gathering, storing, accessing, and analyzing enterprise data to support effective decision making. Business Analytics has been consistently ranked as one of top five technology priorities during the past several years by chief information officers in Gartner’s annual survey of IT executives. Enterprise software is a category of computer programs used to run a business. Enterprise software is designed to solve organization-wide problems, rather than individual departmental problems. The goal for an organization adopting enterprise software is improved productivity and efficiency through better management of its core business processes. The market leader in business analytics application enterprise software is SAP. A certificate in Business Analytics Enterprise Management Using SAP Software will allow students to understand how to run organizations more effectively by improving various business processes and using SAP technology.

Students interested in … they complete UBUS 310 or OMIS 338 so the coordinator may advise students regarding course scheduling. Applications are available in the Department of Operations Management and Information Systems.

TLEE 382. CLINICAL EXPERIENCE IN ELEMENTARY SCHOOL CURRICULUM AND INSTRUCTION (1). Pre-student teaching...education courses. PRQ: TLEE 282, or EPS 282X, EPFE 410, LTIC 301, and successful completion of the ILTS Test of Academic Proficiency or equivalent ACT waiver.

TLEE 383. ELEMENTARY EDUCATION PROFESSIONAL YEAR I: INTERNSHIP TO STUDENT TEACHING (2). Pre-student teaching practicum...to be taken in conjunction with methods courses. Methodology related...plans required. S/U grading. PRQ: TLEE 382 385 and LTRE 350. CRQ: TLEE 344 and ETR 430. To be taken in conjunction with methods courses.

TLEE 385. DIFFERENTIATION IN ELEMENTARY SCHOOL INSTRUCTION: FIELD EXPERIENCE WITH DIVERSE LEARNERS (1). Pre-student teaching...work required. S/U grading. PRQ: TLEE 382 and EPS 450. CRQ: LTIC 420.

Other Catalog Change

Department of Curriculum and Instruction (LTIC, LTLA, LTRE, TLCI, TLEE)

The department offers the B.S.Ed. degree with either a major in elementary education, to prepare candidates to obtain professional educator licensure in grades 1-6; or a major in middle level teaching and learning, to prepare candidates to obtain professional educator licensure in grades 5-8, which meet State of Illinois approval. Candidates who successfully complete one of these programs and pass the state mandated Teacher Performance Assessment will have completed all required ISBE and CAEP standards for receiving university recommendation for licensure. Successful completion of one of these programs, without receipt of a passing score on the state mandated Teacher Performance Assessment may result in the candidate receiving a degree without university recommendation for licensure in grades 1-6 (elementary education) or 5-8 (middle level grades).

Candidates who successfully ... recommendation for licensure in grades 1-6. Successful completion ... for licensure.

Certificate of Undergraduate Study

eLearning Design (12)

This certificate of undergraduate study in eLearning design is designed to provide students in all majors a set of four courses focused on exploring new learning environments integrated with enhanced technology while developing skills to understand the theories and practice of eLearning design. Students will examine the conceptual and technical basis of eLearning design and obtain hands-on experience with various interactive technologies and use of survey methods for evaluation purposes.

Requirements

Students must maintain good academic standing within the university, achieve a minimum grade of a C in each course applied toward the certificate, and complete all certificate course work within a period of four calendar years. Only courses taken at NIU may be applied toward the certificate. With department approval, courses may be applied toward undergraduate degree requirements in the department. Students interested in the certificate should apply no later than the beginning of their final semester prior to graduation. Applications are available in the Department of Educational Technology, Research and Assessment.

Required Courses (12)

ETR 340 - Survey Methods for Training and Evaluation (3)

ETT 329 - Learning in the Digital Age (3)

ETT 439 - Developing Educational Software (3)

Other Catalog Change

Department of Special and Early Education (SEEC, SESE, SEVI)

Admission to the major in early childhood education is limited. See “Limited Admissions and Limited Retention Requirements” in this catalog.

The Department of Special and Early Education (SEED) offers the B.S. degree in early childhood education and special education (Learning Behavior Specialist I and Visual Impairments) are offered. Viewing teaching both as an art and a science, learning as a reciprocal process, and service as a responsibility, the department provides curriculum and instruction grounded in theory, research, and best practice.

The B.S.Ed. degree in special education is designed for those who plan to teach students with disabilities at the elementary, middle, and secondary levels. This program prepares candidates for a professional educator licensure with endorsement for teaching individuals with disabilities, either as Emphasis 1. Learning Behavior Specialist I, or Emphasis 2. Vision Impairments.

As part of the licensing process, students must pass the competency examinations required by the Illinois State Board of Education, one in basic skills, one in the subject matter knowledge that corresponds most closely to the Illinois field for which they are seeking professional educator license and associated endorsement, and, for special educators, one in the general education curriculum. Additional tests may be required before applying.
Major in Early Childhood Education (B.S.)
The Department of Special and Early Education offers a program leading to the B.S. degree with a major in early childhood education. The major is designed to prepare students to teach young children.

The Early Childhood Education major prepares candidates to obtain professional educator licensure with the Early Childhood Education endorsement … Illinois Public School System). The early childhood education program is approved by the Illinois State Board of Education (ISBE) and the National Association for the Education of Young Children.

Admission to the early childhood education program is approved by the Illinois State Board of Education (ISBE) and the National Association for the Education of Young Children.

Licensure and Endorsement Requirements
Candidates who major in early childhood education are required to meet Illinois licensure requirements including at least three semester hours of cultural diversity course work. To advance to the first professional semester, candidates must have a) achieved an NIU GPA of 2.50 or better, b) completed the safety tutorial, and c) obtained a passing score on all sections of the Test of Academic Proficiency (TAP). The TAP may be waived by ISBE based on the applicant’s ACT plus writing or SAT scores. See an adviser for current testing requirements. To continue to enroll, candidates must maintain a minimum GPA of 2.50 in all professional education courses. The major GPA is calculated using course work completed in the Department of Special and Early Education.

Students should carefully read the section entitled “Educator Licensure Requirements.”

As part of educator licensure, students candidates are required to pass Illinois Licensure Testing System (ILTS) examinations as required by the Illinois State Board of Education (ISBE). These requirements include obtaining a passing score on the Test of Academic Proficiency (TAP) and completing the Safety Tutorial prior to formal admission into the program. Prior to student teaching, candidates must earn a passing score on the subject matter knowledge content area test (Early Childhood Education) prior to student teaching. During student teaching, candidates must earn a passing score on the Teacher Performance Assessment (edTPA). Failure to earn a passing score on the edTPA may result in the candidate receiving a degree without university recommendation for licensure. The Test of Academic Proficiency may be waived by ISBE based on the applicant’s ACT or SAT scores. See an adviser for current testing requirements.

Due to the comprehensive nature of the program and required course sequence, all students candidates must plan their program of study with an early childhood education adviser. Some districts where candidates are placed for clinicals and student teaching may require a TB test. For information on additional requirements, students candidates should carefully read the catalog section entitled “Educator Licensure Requirements.”
The major GPA is calculated using course work completed in the Department of Special and Early Education.

The student learning outcomes for this degree are located at www.niu.edu/assessment/clearinghouse/outcomes/index.shtml.

Professional Educator License with Early Childhood Endorsement and Preschool Special Education Approval

As part of educator licensure requirements, students candidates in the early childhood education program must earn a grade of C or better in COMD 220; COMS 100, ENGL 103, ENGL 203 (or ENGL 204), EPFE 201; GEOG 202 or GEOG 204; HDFS 230; #HIST 260 or #HIST 261; #LTIC 301; LTIC 400; LTIC 420; LTIC 445; LTLA 305; LTLA 361; LTRE 309; MATH 201; POLS 100; PSYC 102; SEEC 340; SEEC 343; SEEC 401; #SEEC 403; SEEC 425; SEEC 430; SESE 240; SESE 423; SESE 424; and SESE 426. In addition, students candidates must earn a grade of C or better in one life science course, one earth/space science course, one physical science course, and two elective courses. Also, students candidates must earn a grade of S in all early field experience and student teaching courses (SEEC 282, SEEC 382, SEEC 485A, SEEC 485B).

Requirements in Department (48)

SEEC 382 - Practicum in Early Childhood Studies Education (3)

Requirements outside Department (51-54)

Science courses (physical, life, earth/space) approved by adviser (6-9)

Total Hours for Professional Educator License with Early Childhood Education Endorsement and Preschool Special Education Approval: 99-102

Note: Any changes related to the name change for the emphasis in Vision Impairments needs the approval of Pres. Freeman.

Major in Special Education (B.S.Ed.)

The B.S. Ed. in Special Education includes two emphases: Learning Behavior Specialist I (LBS I) and Vision Visual Impairments. The LBS I cross-categorical emphasis prepares students candidates to obtain an Illinois educator license with entitlement as a Learning Behavior Specialist I (Pre-K school - age 21). The emphasis in Vision Visual Impairments prepares students candidates to obtain an Illinois educator license with entitlement in the area of Teacher of Students Who Are Blind or Visually Impaired (Pre-K school - age 21).

The Special Education program provides a broad range of professional knowledge, skills, and dispositions for students preparing to become special education teachers. Field experiences and course work have been carefully designed and coordinated based on policies, standards, and frameworks of the university, the College of Education; the Illinois State Board of Education (ISBE); and the Council for Exceptional Children (CEC), an international organization for special education.
Entrance and Retention in the LBS I and Vision Visual Impairments Program Emphases

To enter into the teacher education in special education and advance to the first professional semester, students must have (a) achieved an NIU GPA of 2.50 or better, (b) received a grade of C or better in SESE 240 or an equivalent transfer course, (c) completed the safety tutorial prior to the first clinical experience, and (d) obtained a passing score on all sections of the Test of Academic Proficiency (TAP), or a minimum composite score 22 or above on the ACT including the combined English writing score of 19 minimum or on the SAT 1030 composite score with a minimum 450 on the portion. During the pre-professional semester, students complete an application form indicating intent to begin the professional course sequence. Advising staff verify scores on the Test of Academic Proficiency (TAP or ACT/SAT), completion of the safety tutorial, prerequisite course grades, and overall NIU GPA. All students who meet requirements are admitted to the Learning Behavior Specialist I or Vision Visual Impairments teacher education program.

To remain a major in special education, candidates must (a) maintain a cumulative GPA of 2.50 or better, (b) receive a grade of C or better in professional courses and a grade of Satisfactory (S) in clinical courses, and (c) pass the ISBE content area test and Special Education General Curriculum Test before enrolling in student teaching courses. Students in the LBS I emphasis take the Learning Behavior Specialist I content test, and candidates in the Vision Visual Impairments emphasis take Teacher of Students Who Are Blind or Visually Impaired content test. The departmental advising staff track GPA and course grades at the end of each semester and verify passing scores on the content area and Special Education General Curriculum Test prior to student teaching. For both the LBS I and the Visual Impairments emphases, candidates must pass all required courses in professional semesters with grades of C or better or, as appropriate, with a grade of S, before advancing to the next professional semester. Candidates must pass the first student teaching course with a grade of S before advancing to the second student teaching course. School districts providing early clinical and student teaching placements may have additional requirements such as TB testing that candidates must complete prior to working with students.

Candidates are expected to meet all university and College of Education standards for retention. They also must meet the as well as standards set forth in the Council for Exceptional Children Code of Ethics and Standards for Professional Practice for Special Educators.

Transfer Students

To be admitted to teacher education in Emphasis 1, Learning Behavior Specialist I, Individuals who have earned the Associate of Arts in Teaching (A.A.T.) in Special Education may apply to transfer into teacher education in either the Learning Behavior Specialist I (LBS I) or the Visual Impairments emphasis. Transfer students must (a) provide evidence of having met the current Illinois requirements for passing the Test of Academic Proficiency (TAP), or of obtaining a minimum score on the ACT with writing, or SAT (of the ACT), and (b) have a minimum transfer GPA of 2.50, and (c) including have grades of C or better in A.A.T. professional special education courses. The LBS I emphasis requires that the A.A.T. program must include courses in Language Development and Introduction to Foundations of Reading. Students transferring to NIU with an A.A.T. in Special Education, who intend to pursue the Learning Behavior Specialist I LBS I program, must contact the undergraduate academic adviser no later than one year prior to admission to NIU. Failure to do so may result in a delay of registration for the initial block sequence of courses leading to educator license with LBS I endorsement.
License and Endorsement Requirements
Candidates who major in special education in the Learning Behavior Specialist I emphasis or the Vision Impairments emphasis are required to meet the Illinois licensure requirements including 29-41 semester hours of general education classes which must include at least three semester hours of cultural diversity course work. Transfer students with an A.A. or A.S. degree also must meet these requirements for educator licensure. Some districts where candidates are placed for clinicals or student teaching may require a TB test. Candidates who successfully complete the program requirements and pass the state mandated Teacher Performance Assessment (edTPA) during student teaching will have completed all required ISBE and CAEP standards for receiving university recommendation for licensure and special education endorsement in Visual Impairments or Learning Behavior Specialist I. This includes completing the Safety Tutorial prior to the first early clinical course, passing the Learning Behavior Specialist I content test or Teacher of Student Who Are Blind or Visually Impaired content test and the Special Education General Curriculum Test prior to student teaching. The Teacher Performance Assessment (edTPA) and the Illinois Assessment of Professional Teaching test (APT) that are completed during student teaching. Successful completion of the program without receipt of a passing score on the state mandated Teacher Performance Assessment may result in the candidate receiving a degree without university recommendation for licensure.

Emphasis 1. Learning Behavior Specialist I
This emphasis prepares candidates for Illinois educator licensure with endorsement as a Learning Behavior Specialist I (Pre-K school-age 21).

Candidates in the … 491, and SESE 492).

Candidates must pass all … student teaching course.

The LBS I endorsement is a … suburban settings.

Emphasis 2: Vision Impairments
Emphasis 2 prepares candidates for Illinois educator licensure with endorsement in the area of Teacher of Students Who Are Blind and Visually Impaired (Pre-K school to age 21).

Candidates in the Vision Impairments program must … must retake the course(s).

Inclusive Teaching Practices (15)
This certificate is designed to prepare teacher candidates with knowledge and skills related to children with disabilities included in school settings. This certificate is appropriate for NIU students pursuing educator licensure in an area other than special education. Course work in this program focuses on the impact of disabilities on children in school settings and ways to facilitate their learning. All course requirements for this certificate must be completed at NIU within three calendar years. Students pursuing this certificate must file a formal application with the undergraduate adviser in the Department of Special and Early Education and must complete all certificate requirements before the certificate is listed on the transcript. This certificate does not fulfill requirements for special education endorsement. Teacher candidates who want to earn the Special Education endorsement should contact their adviser for further information.

Requirements (15)
SESE 240 - Introduction to Special Education (3)
SESE 260 - Observation of Individuals with Disabilities in Community and/or School Settings (1)
SESE 417 - Positive Behavior Support and Classroom Management for Special Educators (3)
SESE 456 - Methods for Collaboration and Inclusion for Elementary Education Teachers (3)
   OR SESE 457 - Methods for Including Middle and Secondary Students with Exceptionalities in the General Education Classroom (3)
SESE 490 - Workshop in Special Education (2)
SEVI 205 - The Blindness Experience (3),
   OR FLSL 101 - Beginning American Sign Language (3),
   OR ARTE 479 - Art for Special Needs Populations (3)

Young Children with Disabilities Studies (15)
This certificate is designed to prepare students with a set of courses focused on assessment and instruction of young children with disabilities. Students completing this certificate will acquire the skills and techniques for assessing the communication, social, and cognitive skills of young children and providing appropriate supports to children and families. The certificate of undergraduate study in young children with disability studies is open to all students admitted to Northern Illinois University. All course requirements for this certificate must be completed at NIU within three calendar years. Students who want to pursue this certificate must receive approval and advisement from advisers in the Department of Special and Early Education. All course requirements for this certificate must be completed at NIU. Teacher candidates who want to earn the Early Childhood Special Education approval should contact their adviser for further information.

Requirements (15)
SESE 240 - Introduction to Special Education (3)
SESE 423 - Observation and Assessment in Early Childhood Special Education (3)
SESE 424 - Methods and Strategies for Promoting Development and Teaching Infants, Toddlers,
SECTION A – Recorded for inclusion in the 2018-19 Undergraduate Catalog

and Young Children with Disabilities and Special Needs (3)
SESE 426 - Working with and Supporting Families of Young Children with Disabilities and Special Needs (3)
LTLA 305 - Language Development (3),
OR COMD 220 - Introduction to Communicative Disorders (3)

ELE 491. ELECTRICAL ENGINEERING DESIGN PROPOSAL (1).
ELE 492. ELECTRICAL ENGINEERING DESIGN PROJECT (3).

New Courses

CIP CODE: 14.0501

BME 201. INTRODUCTION TO BIOMEDICAL ENGINEERING (3). Survey of engineering applications in medical sciences. The art and science of medicine and the process of medical diagnosis and treatment. Diagnostic instrumentation and measurements including medical imaging. Introduction to bioelectric phenomenon, biomechanics, biomaterials, biochemical engineering, computers in medicine, and biotechnology. PRQ: BIOS 208, BIOS 210, and ELE 210.

BME 330. BIOMECHANICS (3). Mechanics of deformable bodies with an emphasis on biological and physiological systems. Concepts of stress and strain, axial loading, torsion, bending, and deflection. Specific applications to mechanical properties of bone and cartilage, muscle forces and mechanics, and other biological solids. PRQ: BME 201 and MEE 209.

BME 336. BIOMATERIALS (3). Properties of materials, protein/cell/tissue biology, metals/ceramics/polymers and composites as biomaterials, material selection and structure-function relationship pertinent to biomedical applications, tissue-biomaterial interaction, FDA regulation, processing of biomaterials through conventional and additive manufacturing methods. PRQ: CHEM 210 and CHEM 212; or consent of department.

BME 420. BIOMEDICAL INSTRUMENTATION DESIGN (4). Design and application of electrodes, bio-potential amplifiers, biosensor applications, therapeutic devices. Medical imaging. Electrical safety. Measurement of ventilation, blood pressure and flow. Three hours lecture per week, and 10 laboratory sessions (3 hours each). Not available for credit to students with credit in ELE 420. PRQ: BME 320 or ELE 330.

BME 421. BIOMEDICAL SENSOR ENGINEERING (3). Theory, analysis, and design of biomedical sensors. Topics include biological components; immobilization of biological components; medical, biological, and chemical sensors; and transducers based on electrochemistry, optics, and solid state devices. Not available for credit to students with credit in ELE 421. PRQ: BME 320 or ELE 330 or ELE 335.

BME 425. BIOMEDICAL SIGNAL PROCESSING (3). Modeling of biomedical signals and analysis of
biomedical systems using both time-domain and frequency-domain techniques. Statistical description of signals in biomedical areas. Design of linear and nonlinear filters for biomedical applications and medical imaging. Practical applications in cardiac and neurological signal processing. Not available for credit to students with credit in ELE 425 or ELE 451. PRQ: ELE 315; and either ISYE 335 or STAT 350.

BME 435. BIOTRANSPORT (3). Understanding the movement of mass, momentum, and energy transport in living systems. Fundamental theory and governing equations will be introduced. Topics include diffusion, convection, reaction, cellular mechanics, fluid solid coupling, drug delivery, etc. PRQ: BME 330 and MEE 340.

BME 436. ADVANCED BIOMATERIALS AND MANUFACTURING (3). Biomaterials (metallic, bioceramics, biopolymers and biocomposites), characterization of biomaterials, processing and manufacturing, design and application, interaction between the host tissue and biomaterial, physical, mechanical, and biological properties of biomaterials, drug delivery, in vitro and in vivo examination, FDA regulation. PRQ: BME 336.

BME 437. BIOMATERIALS CHARACTERIZATION (3). Importance of characterization of physical, mechanical, chemical, and biological properties of materials; standards in properties of materials. PRQ: BME 336.

BME 495. SENIOR BIOMEDICAL ENGINEERING DESIGN I (3). Complete preparation of an engineering system design or project covering problem identification, conceptual design and analysis, prototyping, and the development of a work schedule required to carry out the project. Includes methodology, standards and safety codes, professional ethics, decision making, design evaluations, and oral and written communication. A writing-intensive course. Offered in the fall. Students are expected to take BME 496 the following spring. PRQ: Consent of department.

BME 496. SENIOR BIOMEDICAL ENGINEERING DESIGN II (3). Execution of capstone design project under direct supervision of the instructor or other subject-matter expert. Students further refine and complete design solution to the engineering design problem proposed during BME 495 Senior Biomedical Engineering Design I. Students further refine and incorporate engineering design concepts, including safety and cost effectiveness, as well as employ analytical and computer tools. Team project required. A writing-infused course. The course is offered in the spring. Students are required to take BME 495 the previous fall. PRQ: BME 495.

BME 497. INDEPENDENT STUDY (1-3). Independent pursuit of problems in biomedical engineering under faculty supervision. Written report required. May be repeated to a maximum of 3 semester hours. PRQ: Consent of department.

BME 498. SPECIAL TOPICS (1-3). Advanced topics in biomedical engineering. May be repeated to a maximum of 3 semester hours. PRQ: Consent of department.
A. Bio-Nano photonics
B. Biomaterials
C. Advanced Prosthetics
D. Biomedical Signal Processing
E. Computational Biophysics
G. Biosensing
J. Biomedical Transport
K. Biomedical Imaging

BME 499. HONORS UNDERGRADUATE RESEARCH (1-3). Pursuit of an undergraduate research topic in biomedical engineering under faculty supervision. Written report required. May be repeated to a maximum of 3 semester hours over two or three semesters. PRQ: Consent of department.

New Course: p. 162, 2017-18 Undergraduate Catalog

CIP CODE: 14.1001

ELE 495. SENIOR ELECTRICAL ENGINEERING DESIGN I (3). Complete preparation of an engineering system design or project covering problem identification, conceptual design and analysis, prototyping and the development of a work schedule required to carry out the project. Includes methodology, standards and safety codes, professional ethics, decision making, design evaluations, and oral and written communication. A writing-intensive course. Offered in the fall. Students are expected to take ELE 496 the following spring. PRQ: Consent of department.

ELE 496. SENIOR ELECTRICAL ENGINEERING DESIGN II (3). Execution of capstone design project under direct supervision of the instructor or other subject-matter expert. Further refinement and completion of design solution to the engineering design problem proposed during ELE 495, Senior Electrical Engineering Design I. Further refinement and incorporation of engineering design concepts, including safety and cost effectiveness, as well as employ analytical and computer tools. Team project required. A writing-infused course. Offered in the spring. Students are expected to take ELE 495 the previous fall. PRQ: ELE 495.

Course Revisions p. 160 of 2017-18 Undergraduate Catalog

ELE 380. CONTROL SYSTEMS I (4). Control system … design process. PRQ: ELE 315; and either ELE 330 or BME 320.

ELE 420. BIOMEDICAL INSTRUMENTATION DESIGN (4). Design and … sessions (3 hours each). Not available for credit to students with credit in BME 420. PRQ: ELE 330 or BME 320.

ELE 421. BIOMEDICAL SENSOR ENGINEERING (3). Theory, analysis, … state devices. Not available for credit to students with credit in BME 421. PRQ: ELE 330 or ELE 335 or BME 320 or MEE 390.

ELE 425. BIOMEDICAL SIGNAL PROCESSING (3). Modeling of biomedical … signal processing. Not available for credit to students with credit in ELE 451 or BME 425. PRQ: ELE 315.

ELE 451. DIGITAL FILTER DESIGN (3). Difference equations, … design. Practical examples and computer simulations. Not available for credit to students with credit in BME 425. PRQ: ELE 315.

- OR TECH 311 - Computer-Aided Modeling

Advanced Computer-Aided Design (3)

Department of Mechanical Engineering

New Course: 2017-2018 Undergraduate Catalog

CIP CODE: 14.4201

MCTR 320. FUNDAMENTALS OF MECHATRONICS (3). Basic knowledge and background for mechatronics systems, sensors and actuators, architecture and programming of microcontrollers, input/output interfacing, electric circuits and components, digital circuits, communication, data acquisition and measurement, basic concept of control, and case studies of mechatronics systems. PRQ: MCTR 210.

MCTR 421. HUMAN MACHINE INTERACTION PRINCIPLES AND DESIGN (3). Design principles in Human-Computer interaction, Human-Robot interaction, Humanoid robots and exoskeleton control. PRQ: MCTR 420.

MCTR 422. SERVO DRIVES (3). Study of electric drives used in servo systems. Development of electric motor models through an understanding of electromagnetic systems. Discussion of power electronic circuits used in motor drives. Analysis and control of motor drive systems typically used in servo applications. PRQ: ELE 315 and ELE 330; and either MEE 209 or MEE 211.

MCTR 430. VISION-BASED CONTROL (3). Computer vision techniques for three-dimensional reconstruction; Camera models; epipolar geometry; camera calibration; visual serving, mobile and manipulator control using
MCTR 440. DESIGN OF MECHATRONICS SYSTEMS (3). Systems level thinking for mechatronics frameworks and related design methodologies for integration of products and systems. Techniques for enabling mechatronic products and systems to meet requirements for their operation in real-time. Focus on reliability, safety, energy and environmental issues, ethics, and product liability. PRQ: MCTR 420.

MCTR 481. MECHATRONICS ENGINEERING SENIOR DESIGN I (3). Complete preparation of an engineering system design or project covering problem identification, conceptual design and analysis, prototyping and the development of a work schedule required to carry out the project. Includes methodology, standards and safety codes, professional ethics, decision making, design evaluations, and oral and written communication. A writing intensive course. Offered in the fall. Students are expected to take MCTR 482 the following spring. PRQ: MCTR 420. CRQ: MCTR 440.

MCTR 482. MECHATRONICS ENGINEERING SENIOR DESIGN II (3). Execution of capstone design project under direct supervision of the instructor or other subject-matter expert. A writing intensive course. Specific sections of the course are offered to students pursuing an emphasis in mechanical engineering. Offered in the spring. Students are expected to take MCTR 481 the previous fall. PRQ: MCTR 481.

New Course: 2017-18 Undergraduate Catalog

CIP CODE: 14.1901

MEE 383. ENGINEERING ANALYSIS (3). Concepts from linear algebra and differential equations applied to a broad set of engineering analysis problems. Use of computational tools to analyze such problems. Communication of analysis results. PRQ: MATH 336.

MEE 485. SENIOR MECHANICAL ENGINEERING DESIGN I (3). Complete preparation of an engineering system design or project covering problem identification, conceptual design and analysis, prototyping and the development of a work schedule required to carry out the project. Includes methodology, standards and safety codes, professional ethics, decision making, design evaluations, and oral and written communication. A writing-intensive course. Offered in the fall. Students are expected to take MEE 486 the following spring. PRQ: MEE 320, MEE 321, and MEE 340. CRQ: MEE 470.

Course Revision: 2017-18 Undergraduate Catalog

MEE 4826. SENIOR MECHANICAL ENGINEERING DESIGN II PROJECT (3). Special Execution of capstone design project under individual direct supervision of the instructor or other subject-matter expert. A writing-intensive course. Specific sections of the course are offered to students pursuing an emphasis in mechanical engineering. Offered in the spring. Students are expected to take MEE 485 the previous fall. PRQ: MEE 4845.

231. SAFETY PROGRAMS (3) Review and application of contemporary approaches to recognition, evaluation, and control of workplace hazards. Use and limitations of federal safety standards, and their relationship to occupational safety and health programs. Study of equipment, processes, materials, material handling equipment, chemicals, fire systems, and the work environment related to occupational settings.

277. DIGITAL LOGIC DESIGN (3) Design of ... transfer language. PRQ: Either PHYS 211 or both TECH 175 with a grade of C or better and TECH 175A. CRQ: TECH 277A.

311. COMPUTER-AIDED MODELING ADVANCED COMPUTER-AIDED DESIGN (3). ....

314. TOOL AND DIE DESIGN (3). Role of ..., and gauges. PRQ: MATH 155, TECH 211 and TECH 265.

362. NUMERICAL CONTROL SYSTEMS (3) Principles, techniques, and applications of numerically-controlled machine tools with emphasis on machine-based code/programming using both manual and computer-controlled systems, setup and operations. Laboratory activities required with manual and computerized machine tools. PRQ: TECH 262, and either CSCI 215 or CSCI 240 or TECH 295, or consent of department.

377. MICROCONTROLLERS AND INTERFACING (3). .... PRQ: TECH 277. CRQ: TECH 377A.

423. AUTOMATED MANUFACTURING SYSTEMS (3) Study of ... technology. PRQ: TECH 325, TECH 326, and TECH 420, and TECH 425, or consent of department.

430. MICROCONTROLLERS INTERFACING AND APPLICATIONS SYSTEMS AND INTERNET OF THINGS (3). Introduction to Advanced microcontroller-based systems for embedded control applications involving Internet of Things. Topics include microcontroller programming and interfacing, application of microcontrollers in process system control, automation, instrumentation, and communication. PRQ: TECH 377.

432. DISASTER PREPAREDNESS (3). Crosslisted as UNIV 310X. Introduction ... these types of events. Enrollment not open to students with credit in UNIV 310X.

436. DESIGN AND ADMINISTRATION OF INDUSTRIAL SAFETY PROGRAMS (3) Analysis and application of current problems and trends in safety management systems. Preparation of topic-specific safety programs and procedures. Development of a business case for implementing changes in safety practices. for the design and supervision of model industrial accident prevention programs. PRQ: TECH 231 or TECH 245, TECH 434, or consent of department.

437. FUNDAMENTALS OF INDUSTRIAL HYGIENE (3) Application of ... and productivity. PRQ: CHEM 110, CHEM 111, TECH 231, TECH 415; or consent of department.

471. DIGITAL AND DATA COMMUNICATION (3) Coverage of ... communications. PRQ: TECH 378 TECH 376.
477. ENGINEERING TECHNOLOGY SENIOR DESIGN PROJECT I (1) Review and … preliminary design.
PRQ: Senior standing; ENGL 308 or MGMT 346, and choose from one of the following sets of courses:
either TECH 375 and TECH 376 and TECH 377, or TECH 378, TECH 325, and TECH 391.

New Courses

Page 237, 2017-18 Undergraduate Catalog

CIP: 45.0201

104. ANTHROPOLOGY OF POP CULTURE: MAKING THE FAMILIAR STRANGE (3). Examination of American popular culture as a widely-shared and contested set of beliefs, values, and practices embodied in a variety of topics such as consumerism, sports, race and ethnicity, poverty and social mobility, food systems, sex and sexual orientation, and globalization. All topics are critically examined in a crosscultural and/or cultural evolutionary anthropological context.

410. ENVIRONMENTAL ARCHAEOLOGY (3). Introduction to methods and theories relevant to analysis and interpretation of past human-environment interactions, by examination of historical and current theoretical literature. Emphases on outlining the kind of environmental data that survives in the archeological record (geological, botanical, faunal, chemical), recovery and analytical methods, and inferences made from these data to understand human-environment dynamics. Topical themes include the use of archeological sites as paleoenvironmental archives, plant and animal domestication, human impacts on ancient environments, and cultural collapse/resilience.

411. SETTLEMENT OF THE AMERICAS (3). Introduction to initial human settlement of the western hemisphere. Major themes include: chronology and migration routes of early settlement; important archeological sites in North, Central, and South America, environmental and landscape change, human impacts on environments, theories of human biogeography (migration and colonization), and current methods accelerating the pace of discoveries.

416. HUMAN MIGRATION (3). Examines key events in human development and landscape evolution that
led to successful migrations. Compares human migration episodes in different times and places, and discusses questions related to why humans move, environmental constraints and opportunities to human movement, hominid species similarities and differences with respect to inhabited ranges and migration patterns, and the role of evolution and technological development.

New Course

Page 237, 2017-18 Undergraduate Catalog

CIP: 45.0301

105. ARCHAEOLOGY MYTHS AND MYSTERIES (3). Examines how archaeologists study the remains of the past to understand prehistoric people and their lifeways. Develops methods for critically evaluating the archaeological records. Explores concepts characterizing science and pseudoscience to develop criteria for distinguishing the two.

AND ECON 393A - Mathematical Economics Laboratory (1)
ECON 489 - Seminar in Economics Analysis (3)

Total Hours for Emphasis 1, Financial Economics: 50 49 (B.S only)
Admission
This program leads to both the B.S. and M.A. in Economics degrees. Students who wish to participate in this program should identify themselves to the Department of Economics as majors who will complete the requirements for the B.S. degree having taken the calculus option (MATHS 229, MATH 230, and STAT 350). Ideally students will express their interest during their junior year and have completed or be in the process of completing ECON 360, ECON 361, and ECON 390.

Students who are interested in this program and have completed or are in the process of completing ECON 360, ECON 361, ECON 390, MATH 230, and STAT 350 should apply to the Economics M.A. program under the special provisions of this program and in consultation with the Director of Graduate Studies in Economics by the end of their junior year. Students must meet all the degree and application requirements and deadlines given by the Graduate School. Students who have completed the courses MATH 229, MATH 230, STAT 350, and ECON 390 with a grade of B or better may request that the GRE requirement for admission to the M.A. program be waived by the Department of Economics.

Students wishing to take part in this program should be aware of all the regulations and restrictions of accelerated baccalaureate/master’s degree programs as outlined in the NIU Graduate School Catalog under the heading of Early Admission of NIU Undergraduates; and Admission to Accelerate Baccalaureate/Master’s Degree Programs.

Curriculum
Students must complete all general education requirements and MATH 229, MATH 230, STAT 350, ECON 360, ECON 361, and ECON 390 by the end of their junior year. During their senior year, students will take ECON 590 in the fall semester and 9 semester hours from 500-level elective courses spread across the two semesters of their senior year. If additional electives are taken before completion of the B.S. requirements, only 18 credit hours of these courses may be counted toward the elective requirements for the B.S. degree in Economics. Students are encouraged to enroll in ECON 592 to fulfill their capstone requirement and as a stepping stone toward their M.A. research paper, which is necessary to complete the M.A. degree. Upon receiving their undergraduate degree, students will then enroll in ECON 591, ECON 660, and ECON 661 in the fall semester, ECON 690 and ECON 692 in the spring semester, and be allowed to register for 600- and 700-level elective courses. Upon completion of the course and research paper requirements outlined in the Graduate Catalog for the M.A. in Economics Degree program, the students shall earn the M.A. in Economics.

Students who are part of this accelerated B.S./M.A. in Economics program are not bound by the College of Liberal Arts and Sciences policy that prohibits students from earning more than 60 credit hours in their major.

Environmental Studies

Anthropology

Anthropologists study the development of human culture, focusing on the interactions of humans with their physical environments. This major allows students to develop an understanding of how the social, cultural, political, and economic environments of a community affect the development and implementation of policies that impact people in both domestic and international settings. Students learn how to interpret and analyze human behavior, assess and evaluate diverse societies, and develop an understanding of the role of culture and ethnicity in the formation of values and beliefs.
ANTH 491 - Current Topics in Anthropology (3)

432. GEOGRAPHY OF GIS FOR PUBLIC AND ENVIRONMENTAL HEALTH (3). Geographic Information Science applications in public and environmental dimensions of health-scenarios in local and regional populations across the globe. Topics include disease ecology, infectious and chronic diseases, geographic mobility, biometeorology, nutrition, development and health, geographic disparities in health, healthcare resources and access, medical systems, concepts of health and place, therapeutic spaces, Measurement in vital statistics, surveillance data, collected field data, and monitoring will be covered with an introduction to health metrics for comparative population health studies. Lecture and laboratory.

493. COMPUTER PROGRAMMING FOR THE GEOSPATIAL AND ATMOSPHERIC SCIENCES (3). Introductory programming … …. PRQ: GEOG 459 or CSCI 240 or consent of department.

---

**Major in Geography**

The emphasis in geography offers the opportunity to develop greater understanding of a specific aspect of geography by choosing electives from one of four areas of study: human geography, geographic information systems (GIS) science, or natural environmental systems, or urban/economic systems. With the proper set of electives, the student can meet federal civil service qualification standards as a soil scientist or hydrologist. The emphasis in geomatics integrates land surveying and mapping science.

**Emphasis 1: Geography (B.A. or B.S.)**

GEOG 498E – Seminar in Current Problems: Human Geography (3)

Requirements outside Department (B.A., 7-20; B.S., 10-15)
*MATH 210 – Finite Mathematics (3),
   OR *MATH 211 – Calculus for Business and Social Science (4),
   OR *MATH 229 – Calculus I (4)
STAT 301 - Elementary Statistics (4)

For the B.A. degree
*MATH 210 – Finite Mathematics (3),
   OR *MATH 211 – Calculus for Business and Social Science (3),
   OR *MATH 229 – Calculus I (4)
STAT 301 – Elementary Statistics (4)
Fulfillment of foreign language requirement (0-12)
(See “Foreign Language Requirement for the B.A. Degree”)

For the B.S. degree
Laboratory science/mathematical/computational skills sequence (10-15)
(See “College Requirements for the B.S. Degree”)

Students should consult the undergraduate adviser for the appropriate sequence for their course of study.

Total Hours for Emphasis 1, Geography: 43 42-56 (B.A.) OR 46 45-51 (B.S.)

↓
Emphasis 2: Geomatics (B.S.)

Requirements in Department (41)
*GEOG 101 - Introduction to Environmental Geography (3)
  AND *GEOG 102 - Introduction to Environmental Geography Laboratory (1)

Major in Mathematical Sciences (B.S.)

↓

Emphasis 5. Mathematics Education
To be licensed to teach secondary school … … Students who successfully complete the program and pass the state mandated Teacher Performance Assessment will have completed all required ISBE and CAEP standards for receiving university recommendation … ….

Requirements in Department (43)

↓

MATH 401 - Clinical Secondary School Experience in Mathematics (1-2),

↓

MATH 413 - Student Teaching (Secondary) in Mathematics (7-12) (See “Clinical Experiences” below)

↓
One additional course from the following (3)
MATH 336 - Ordinary Differential Equations (3)
MATH 421 - Abstract Algebra II (3)
STAT 470 - Introduction to Probability Theory (3)

Requirements outside Department (4)
CSCI 230 - Computer Programming in FORTRAN (4),
OR CSCI 240 - Computer Programming in C++ (4),
OR an approved computer programming class focused on the use of FORTRAN, C, or C++ that contains a laboratory component (3-4)

Recommendations
Courses in chemistry and physics with at least one laboratory course. These courses satisfy the Nature and Technology general education requirement.

ENGL 350, which satisfies a Creativity and Critical Analysis general education requirement.

Special Departmental Requirements for Licensure
Apply for teaching.
Pass all areas of the Board of Education.
Obtain departmental this conference.
Satisfy the minimum above MATH 231.

Admission Requirements
Students are admitted to the Secondary Mathematics Educator Licensure Program when they have:

Established an advising file with the Secondary Mathematics Educator Licensure Program and completed satisfactory reviews of progress each semester after establishment of the file;
Completed at least 12 semester hours at NIU with a cumulative GPA of at least 2.50;
Earned a minimum GPA of 2.25 in all courses counted for credit toward the major and a minimum grade of C in all Mathematics courses;
Earned a minimum GPA of 2.25 in all courses counted for credit toward the major numbered above MATH 231;
Passed the Test of Academic Proficiency (TAP) of the Illinois Licensure Testing System (ILTS) or met the ACT/SAT/TAP substitution as recognized by the Illinois State Board of Education;
SECTION A – Recorded for inclusion in the 2018-19 Undergraduate Catalog

Completed at least 20 clock hours of approved early clinical experiences;

Obtained approval from the Secondary Mathematics Educator Licensure Program.

Retention
Students admitted to the licensure program must:

Maintain a GPA of 2.50 in all course work taken at NIU;

Maintain a minimum GPA of 2.25 in all courses counted for credit toward the major;

Maintain a minimum GPA of 2.25 in all courses counted for credit toward the major numbered above MATH 231;

Complete a satisfactory review of progress each semester with a Coordinator of Educator Licensure in the Department of Mathematical Sciences;

Take and pass the ILTS Mathematics Content Exam prior to applying for MATH 401/Student Teaching;

Take and pass the Teacher Performance Assessment (edTPA) before completion of the program.

Requirements outside Department (26-34)

CSCI 230 – Computer Programming in FORTRAN (4);
  ↓
  contains a laboratory component (3-4)

Professional education requirements (22-30)

Students must complete these requirements.

EPS 406 – Issues in Human Development and Learning in the Middle School and High School Years (3)↓
SESE 457 – Methods for Including Middle and Secondary Students with Exceptionalities in the General Education Classroom (3)

Undergraduates are completing the following sequence of courses:

ILAS 201 – Introductory Clinical Experience (1)
  ↓
MATH 413 – Student Teaching (Secondary) in Mathematics (12)

Clinical Requirements
The Illinois State Board of Education (ISBE) requires a minimum of 100 clock hours of substantial, varied and sequential clinical experiences prior to student teaching. This requirement may be satisfied by completing the following sequence of courses:

- **ILAS 201 - Introductory Clinical Experience (1)**
- **ILAS 301 - Second Clinical Experience (1)** (usually taken the same semester as EPS 406 or equivalent)
- **MATH 401** - Clinical Secondary School Experience in Mathematics (1-2)

Undergraduates must consult with the Coordinator of Educator Licensure in the Department of Mathematics about admission to ILAS 201, ILAS 301, and MATH 401. Postbaccalaureate students should consult with the Coordinator of Educator Licensure in the Department of Mathematics upon arrival.

**Professional Education Course Requirements**

The ISBE and requirements for educator licensure in Mathematics at NIU also specify that candidates must earn a grade of C or better for each course included in required professional course work in human development and learning, and teaching of English Language Learners, teaching exceptional children. Candidates should consult with the Coordinator of Educator Licensure in Mathematics to determine which courses satisfy these additional requirements outside the department.

Please note: the above classes for educator licensure may change to reflect new state requirements.

**Additional Requirements (36-39)**

For detailed information, see “University Graduation Requirements.”

The educator licensure … for a degree.

Nature and Technology (9): Course work in at least two science fields with a minimum of two courses in one science field; must include at least one science laboratory course.

Documentation of the completion of a first aid course, experience … ….

**Other Requirements**

See “Educator Licensure Requirements.”

**Exit Examination**

Students seeking … completed all required ISBE Illinois State Board of Education and CAEP standards for receiving … obtained from the ISBE Illinois State Board of Education.

The requirements listed below for the minor in Mathematics Education apply to students who complete the minor before the fall semester 2014. Students who anticipate completing the minor after summer 2014 should consult their advisors.

Provided that MATH 416 is not chosen as an elective, the minor in Secondary Mathematics Education meets the minimal mathematics requirements for an endorsement to teach mathematics in grades 9-12 in Illinois. Provided that neither MATH 360 nor MATH 416 is chosen as an elective, and provided that the student also completes MATH 410, this option meets the minimal mathematics requirement for an endorsement to teach mathematics in grades 6-8 in Illinois. Individuals seeking an initial teaching license through Northern Illinois University in another discipline area for grades 9-12 need to complete these courses in order to receive an endorsement, on their initial Illinois professional educator license, to teach mathematics in grades 9-12. The Illinois State Board of Education (ISBE) requires that students … ….
