   - Sarah made the comment that it was very helpful to the program to put the report and plan together
   - They are working to revise SLO’s – are “awareness” and “mastery” strong enough words to use in SLO’s? Make sure evaluation is in all parts that it needs to be in
   - The program needs to work on some of the sample sizes and see if they can take a bigger sample size for each assessment
   - The program can send revised SLO’s to the Accreditation, Assessment and Evaluation office once you have updated them

Assessment Plan and Status Report for the Master of Business Administration (MBA)
   - Mona Salmon, Director, MBA Program, was on hand to discuss the report with the group.
   - It was a well written report
   - There was only one year of data – the UAP will have you come back in two of years to report back again with a status report
   - For Learning Objectives 3a and 3c – they need more details saying what is being measured
   - Would be nice if “DPE” courses were shown
   - The members really liked the flow chart for the MBA Curricular Review Process
• “GMAC” can be used as employee feedback; the program will send us the rubrics (omitted to attach to current reports)
• Some members commented that there was a great breakdown of results
• Some members commented that the program did a good job showing planned priorities for the future
